

KRIZ

Expertise Enriching Lives

Introduction

KRIZ Group, established their first venture Voltztech Solutions Pvt. Ltd (VSPL) in 2016, Promoted by Technocrats having rich experience of three decades in Electrical Engineering, Industrial Automation and Health Care with a steadfast commitment to innovation, sustainability and customer satisfaction in the Indian subcontinent.

Over the years VSPL has emerged as one of the frontline organisations catering to diverse clientele ranging from Power Sector, Oil & Gas, Petrochemicals & Refineries, Renewable Energy, Building & Infra, Hospitals & Pharmaceuticals and more.

One of the major corner stones of VSPL's success has been its adherence to high level of ethical standards in business and its commitment to customer support which has propelled it to the forefront of Indian engineering contracting space.

Why Us?

With over three decades of success and experience, KRIZ Group got inspired to expand into the field of In-vitro Diagnostics (IVD). Ethical standards and unwavering commitment to after-sales support are the twin pillars upon which we have built our new venture: KRIZ MEDI SYSTEMS PRIVATE LIMITED.

Leveraging our strong background and industry influence, KRIZ got appointed as the exclusive Pan-India representative of Awareness Technology Inc., Florida, USA, a name globally synonymous with quality and durability in Biomedical Engineering products. The more than 10,000 installations across INDIA stand as a testament to the excellence and reliability of their products and ethical business practices.

To ensure that we meet the high expectations of healthcare professionals, we have formulated a team of IVD industry experts, each with over three decades of experience. These professionals bring a deep understanding of the ever-evolving demands of all stakeholders of this ecosystem.

Our Mission

Our Mission is to revolutionize health care delivery by supplying state of the art Medical Devices to enhance patient's clinical outcomes. We strive to be the trusted partner for healthcare providers by offering an extensive range of high quality, innovative and cost effective medical solutions. We are dedicated to ensuring prompt and reliable distribution, rigorous adherence to safety standards and exceptional customer services.

Our Vision

Our vision is to be a global leader in Medical Device Distribution, recognized for our unwavering commitment to quality, innovation, cost-effectiveness and exceptional service. We aim to create lasting partnerships within the healthcare community, drive continuous advancements in medical technology and set the standards for excellence and reliability in the industry.

Product Portfolio

Clinical Chemistry: Instruments & Reagents

Immuno-Diagnostics: Instruments & Reagents

Hematology: Instruments & Reagents

 Cutting edge Products for other departments are in the pipeline and being announced shortly.

After-Sales Service

Our after sales service philosophy is designed to ensure healthcare providers derive maximum value and optimal performance from our medical devices. We are committed to providing comprehensive support and maintenance services, ensuring minimal downtime for our clients and partners so they can focus on delivering exceptional patient care.

This commitment is made possible through our advanced web-enabled remote diagnostics and troubleshooting capabilities. By quickly resolving issues, we help healthcare providers maintain seamless operations and uninterrupted patient services. Additionally, our dedicated support team is always ready to assist with any technical concerns, further reinforcing our promise of reliability and excellence in after-sales service.
